

### **Dual Enrollment with Anne Arundel Community College**

Seniors who have demonstrated sufficient academic success can enroll in courses with Anne Arundel Community College. Applications need to be approved in advance. Those who earn a C or better in such a course will receive credit both from AACC and from Mercy High School. Anne Arundel Community College tuition applies to this opportunity.

### **Introduction to Sociology (online) Credit: 0.50 Semester 2 J/S**

This course is taught online through Anne Arundel Community College. A student completing this course will earn 0.50 credit through Mercy High School and three college credits through AACC. An additional fee is required. Students will learn sociological principles and perspectives as a way of understanding everyday social life, study meanings and functions of various roles in historical and contemporary societies, and evaluate causes, consequences and comparisons of social hierarchies. Prerequisites: administration approval. PSAT/SAT verbal score over 500.

## **SUMMER SCHOOL COURSES FOR ORIGINAL CREDIT**

Any student who would like to take a summer school course for original credit must fill out the appropriate paperwork from the Office of Academic and Student Affairs and procure the permission of the department chair of the course she intends to take and the principal. Mercy Learning Online courses are automatically approved.

## **SUMMER ONLINE COURSES (2020)**

The following online courses are offered to students for original credit through Mercy Learning Online. Courses earn 0.50 credit and run June 15, 2020 to July 17, 2020. Registration begins April 20<sup>th</sup> and is open to all Mercy students. Tuition is \$325 per course.

### **American Government**

Students will study the foundation, theory, structure and process of American government. Students will analyze the Constitution and learn the branches of the government and their roles and functions. Through exploration of current governmental issues, public policy and the responsibilities of citizenship, students will further develop their skills of critical analysis.

### **Anatomy**

Lessons include an introduction to anatomy including language, organ systems, and types of tissues; study of the skeletal and muscular systems; study of the cardiovascular and respiratory systems; study of the digestive and nervous systems; and study of the urinary system and reproductive systems. Each lesson includes material to read and web sites to access for information. Assignments require writing, analysis, critical thinking, and demonstration of core knowledge and concepts.
