

It's Magic Monday!!!

This month we celebrate Stacey Rogers '04

Stacey is a graduate of the Class of 2004. She currently works for a national interior design firm based here in Baltimore as a purchasing coordinator.

She has 1 cat and 4 dogs, two of which are service dogs in training. In her spare time, Stacey raises and trains puppies for Canine Companions for Independence (www.cci.org). She is currently raising her 6th and 7th puppies and teaching them basic manners and socialization for approximately 18 months. "I basically volunteer to have my heart broken, but it's worth it to see how a dog can change someone's life and give them independence in their day to day life."

Stacey's favorite Mercy memory is definitely the Mercy/IND game. She still attends each year to cheer on the Magic. She is pictured here with Lucky who will graduate this month as a trained service dog.

Mercy is proud of Stacey as she continues to offer service to our community through this program.
