

Summer Assignment 2018

Because we will be working with books provided by the state, you do not have a textbook for a summer assignment. However, in order to make our first few classes more productive, please find definitions **related to statistics** for the following terms and begin your Stats notes with this vocabulary.

In your notes, write definitions for the following vocabulary:

Statistics
Sample
Variables
distribution

data
survey
individuals

probability
observational study
categorical variable

population
experiment
quantitative variable
